

Commercial Energy Consulting

Vis Utilities was founded with the aim of becoming a market leader in commercial energy consulting.

With the turbulent conditions of recent years, navigating energy markets in an informed and measured way has never been more important. The climate crisis has accelerated the need for businesses to reduce their carbon footprint and to find more sustainable working practises. To date, Vis Utilities operates in 16 territories worldwide and provides energy and carbon solutions for businesses ranging from publicly listed companies to small independent shop owners.

Sourcing

At Vis, we dedicate ourselves to uncovering the optimal procurement solution tailored precisely to your business needs. We navigate the dynamic landscape of global energy markets, myriad products, strategies, and suppliers. Our expertise lies in navigating this complexity, leveraging in-depth industry knowledge to identify the perfect fit for your energy sourcing requirements.

Whether it's securing favourable contracts, implementing innovative strategies, or forging partnerships with reputable suppliers, Vis ensures that your energy sourcing endeavours are not just efficient but also strategically aligned with your overarching business objectives.

We understand that every business is unique. That's why we're committed to tailoring a bespoke solution that perfectly fits your needs. Through our comprehensive risk tolerance questionnaire and scoping sessions, we delve deep into understanding your business objectives, desired level of budget certainty, market goals, and risk appetite. This meticulous approach allows us to craft a solution that aligns perfectly with your priorities.

Our suite of services includes:

- | | | | |
|----------|---------------------------|----------|------------------------|
| 1 | Trade Execution | 4 | M2M Position Reporting |
| 2 | Performance Reporting | 5 | Market Reporting |
| 3 | Monthly/Quarterly Reviews | 6 | Reforecasting |

Vis initiates a comprehensive tendering process to secure the product best suited to your requirements. With access to global energy markets, and supplier relationships spanning over 15 years, we can ensure a competitive process to reduce cost and supplier margins.

We offer all contract types, including:

Fixed

Flexible

Pass-through

Blend & Extend

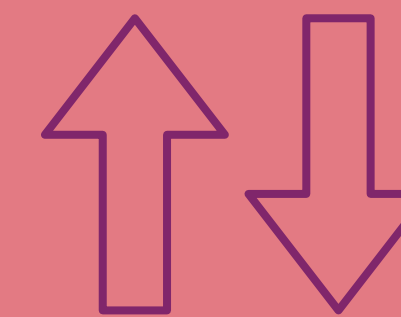

Sourcing a metering agreement that optimises cost reduction while granting seamless access to and visualisation of your energy data is fundamental for efficient energy management. Additionally, we offer comprehensive sitework services, providing quotations for a wide range of projects essential for maintaining and enhancing your energy infrastructure.
